

A Message From

Oak Hammock Administration

Thursday, January 25, 2024

Welcome New Team Members to the Health Pavilion

Kevin Ahmadi, CEO

Hello Oak Hammock community,

I am pleased to announce that we have named Sonja Donlin, R.N., L.N.H.A., as the Oak Hammock healthcare administrator. Sonja has been our quality improvement manager for the last year. Throughout her time here, she has become familiar with our community and identified new opportunities for our residents and team members. Sonja has credentials in the areas of resident assessment, wound care, infection control and nursing administration. She has over 30 years of experience in skilled nursing and assisted living leadership. Her valuable skill sets and broad portfolio highlighted her as the best candidate.

Additionally, we have selected Calvin Reynek, R.N., to fill the role of quality improvement manager. Calvin has been working in the post-acute and long-term care field since 2007. He has worked at all levels, from certified nursing assistant to director of nursing in assisted living and skilled nursing environments. He is known for his management and leadership abilities, clinical operations, regulatory compliance, disease management and infection control. Calvin holds multiple relevant certifications and licenses, including:

- Board Certified Quality Assurance & Performance Improvement
- Board Certified Infection Preventionist
- Board Certified Antibiotic Stewardship
- Certified CPR/AED Instructor
- Certified Dementia Practitioner
- Certified Alzheimer's Disease and Dementia Care Trainer
- CORE Certified Assisted Living Administrator

We are confident he will make a great addition to our team starting the first week in February.

Finally, I invite you to meet Denise Costanzo, R.D., L.D., if you haven't already. Denise is our new, licensed dietitian on staff at Oak Hammock. She has a bachelor's degree in psychology from Rutgers University and a master's in human nutrition from Drexel University. She has worked in various healthcare settings, including a long-term, acute-care facility in Ft. Lauderdale, where her primary focus was nutrition support and enteral nutrition. She has also

provided expertise in the areas of school food service, sports nutrition with a specialization in eating disorders, and, most recently, long-term care and behavioral health. Denise's passion is integrative and functional nutrition, which emphasizes identifying the underlying causes of illnesses and using a blend of modern and alternative interventions for comprehensive care.

I know you will join me in congratulating Sonja on her new role and welcoming our newest team members, Calvin and Denise. We're fortunate to have such talented professionals joining our reputable community.

Sincerely,

Kevin Ahmadi
