

## THE TWIN FOUNTAINS OF OAK HAMMOCK

The new twin fountains of Oak Hammock  
Are a feature rising from the pond  
Which will encourage more people to  
Explore the pond area and beyond

Visitors to the pond can see  
Water drops sparkling in the sunlight  
And after dark they can revel in  
The fiery spray of colors at night

The effervescent fountain showers  
Wash away some of the surface scum  
The Splashing fountain and waterfall  
Create a delightful white noise hum

The Oak Hammock musicians could play  
Otto Respighi's "Fountains of Rome"  
To dedicate this sensational  
Improvement to the local biome
